

Play an integral role in a successful, growing business that provides veterinary products and services to agricultural customers across southwestern Ontario. Our client is looking for a strong analytical mind with good business acumen to make a significant contribution to their operational efficiencies and customer management. This position allows you to demonstrate strong leadership potential as you collaboratively improve corporate systems and develop new business strategies to maintain competitive advantage in the market.

Business Analyst

Stratford, Ontario

Reporting to the Business Manager, you will:

- Drive analysis on customers sales constantly looking for areas to improve customer service, reduce cost of goods and increase sales
- Analyze, adjust and create information management processes, KPI's, and tools within the organization on an ongoing basis
- Help support the implementation and roll-out of a new SAP system, working cross-functionally with business teams to establish operational processes that include financial and accounting systems
- Develop detailed reports, budgets and revenue forecasts by analyzing company financial data
- Identify, monitor and understand industry trends, and collaborate with the management team to report findings to the Board of Directors

Your background includes:

- A Bachelor's Degree in Business, Commerce, Accounting or related finance-focused field. Relevant designations (e.g. CPA) an asset
- 5+ years' industry experience in a combination of business/financial analysis, information management and accounting roles.
- Experience using, managing and customizing information and customer management software – specifically, SAP
- Clear and concise communication abilities and strong interpersonal skills. A proven ability to communicate complex data and information to a broad range of stakeholders
- Motivated by promotion, continuous growth, and leadership and mentorship opportunities

This position will provide the successful candidate with opportunities for advancement as they take on accounting responsibilities and become more involved in BOD decisions
