

Be part of an organization that relentlessly strives for excellence! Operating at a state of the art multi-product logistics hub, our client has made significant investments at this location to ensure agricultural commodities reach international markets. Our client is looking for a senior Grain Grader to effortlessly handle all aspects of the role while exercising the authority needed to ensure that the end product complies with client and CGC standards.

## Grain Grader Supervisor

### Southeast Saskatchewan

Reporting to General Manager, you will:

- Be the on-site subject matter expert for grading and provide leadership and mentoring to two junior Grain Graders
- Accurately analyze and grade a variety of crop commodity samples (grains, oilseeds, pulses etc.) to determine quality standards for moisture content, protein percentage, dockage, mycotoxins, test weight and other relevant specs
- Troubleshoot day-to-day production and process challenges with technical and operational solutions. When necessary, escalate concerns to the appropriate channel
- Operate, maintain and calibrate lab equipment. Prepare samples for off-site labs
- Create timely reports for management and lead efficient and accurate operations through the implementation and monitoring of grain grading policies
- Stay up-to-date with relevant industry news, changes and/or updates to the Canada Grain Act and related federal and provincial regulations

Your background includes:

- 4+ years' of grain grading experience. Level II or III grain inspector certificate preferred
- A strong attention to detail with the flexibility and experience needed to blend different grades to produce desired results
- The drive to grow within the position and take on a leadership role with peers
- Clear and concise communication skills
- Proven multi-tasking and project management abilities

Some overtime and weekend work required. If needed, our client is willing to assist with relocation expenses.
